FAKE LEG WORKS!

It is truly amazing! You can try to make one for yourself - you can even use the most expensive and precious materials available on the free market. Kings and princes have instructed

their wise men for centuries to make fake legs of a quality that is only **one tenth** what we can offer you here. How does it work? Who is the genius brain behind all this hooplah over fake legs? That would be telling, of course, but rest assured there are enough fake limbs in our warehouse to satisfy even the most enthusiastic customers. Try them and see!

GIANT TIGERS

Not many have thought a whole heck of a lot about keeping giant tigers as pets. Perhaps it's because they are bloody great beasts almost 8 or 9 feet in length and have the capacity to rip a man's chest open with one swoop of a paw. Perhaps it's because they have huge gaping maws filled with sharp teeth designed to tear flesh from bone. Or maybe it's because their powerful forearms can pin a man in place while their thick muscular back legs kick against the torso, separating head from body in a gush of blood that feels just like heaven to a feline of such tremendous power. Yes sir, I doubt I'll be keeping any as pets any time soon.

SHOCKING!

How would YOU feel hurtling along through space at over 9,000 miles per hour? Without a helmet on? I'd bet that would get your goat. And how would you feel if you suddenly knew that *everyone else was an ALIEN*, but that they wouldn't let you join the International Space Brotherhood of Light? Haw haw, that would get you steamed. What if someone close to, but whom you never cared for, make it a brother-in-law or some guy you used to share your locker with, that guy at the gym who keeps giving you that look that says "I can out-lift you and I'm not even trying, puss!" - what if he were suddenly proclaimed *Lord High Emperor of the Universe with powers to destroy everyone he mildly dislikes?* Boy! The thought of it sends the mind racing all right! That would be so unpleasant! I'll bet you're glad that isn't happening.
